

Kathy Beekman

Biography

As a professional artist, Kathy has been referred to as the Master Finger Painter of the West. Her passion for the arts, however, extends beyond her canvas. She is a highly sought-after art career coach for artists who want to “rise above the rest”, an instructor in pastel painting to adults, owner/designer of the Beekman Press greeting card business and a travel guide for international creative retreats. She has also authored the books *Prosper, A Success Book for Artists* and *Motivational Quotes, A Reflection Book for Artists*.

Having been a professional in the art world since 1999, she knows that the art business is unlike any other. Kathy understands that navigating it without a clear understanding can really slow your trajectory and hurt your reputation. She is passionate about helping others excel in their art world and since 2006 has been helping artists become the artist they were always meant to be.
