

CAROL NELSON BIO

Carol Nelson is a Colorado mixed media abstract artist and instructor. Her work is characterized by vibrant colors, texture, and, often, collage elements. Carol has conducted mixed media workshops for thousands of students around the country for over 15 years. Carol has completed courses with Golden Artist Colors and is a certified Art Educator.

When Covid caused cancellation of her workshops in 2020, she recently started creating instructional videos on her Teachable site. These online workshops are just as good as being in the front row at one of her workshops. Once purchased, they are yours forever to watch, and refer to, as often as you like. Learn at your own pace.

Her teaching style is thorough, organized, and, most of all FUN. Students are really excited to learn many of her original techniques, which often employ affordable materials from the hardware store. She also includes guidance in the basic art principles of color, value, line, design and composition.
